a. <u>Action Reported by Field:</u>							
(1) <u>Evacuation and Escape</u>							
<p>The remainder of the nuclear personnel to staff GRELAND (West) is ready for recruitment. Three segment chief candidates and a wartime manager candidate have been issued POCs, but permission to recruit has been granted for the wartime manager only. A W/T candidate has been spotted and is being assessed.</p> <p>POCs were issued and permission to recruit granted to recruit a wartime manager and a W/T operator for GRELAND (East). (The GRELAND lines are the western segments of the E &amp; E line.)</p> <p>Recruitment of an additional segment manager for GREPAIR (North) is virtually an accomplished fact. A meeting will be held in January for recruitment of a segment chief for GREPAIR (South). (The GREPAIR lines are the central segments of the E &amp; E line.)</p> <p>The addition of one segment each to GREPAIR (North) and GREPAIR (South) was proposed in order to realize continuous contact at an earlier date, and to provide a route easily traversed in winter.</p> <p>GELAUNCH 1 and 2 are planning E &amp; E lines that would supplement the present E &amp; E effort in GRELAND and GREPAIR. The GELAUNCH lines would not be tied in with existing E &amp; E assets, and no recruitments are anticipated.</p>							
(2) <u>Resistance</u>							
<p>Landing and Drop Zone folder #1h was completed and turned in by GELAUNCH 2. Progress in spotting landing and drop zones continues.</p> <p>GEBASAL submitted five individuals as candidates for a wartime intelligence net in Salzburg. The candidates were of little operational interest. (GEBASAL was originally scheduled for W/T training, but failed the W/T tests. He wants to help, but at present his contribution is negligible. Contact will be maintained bi-monthly with the goal of obtaining a lead to an agent with a greater capability than GEBASAL. Agent has not been paid, and will not be paid until his production merits payment.)</p>

(3) Training

All recruited segment chiefs in the E & E lines are receiving training in their basic duties and responsibilities.

(4) Administration

GELAUEN 1 was presented with a three volume set of medical text books as a Christmas bonus. Agent was overjoyed and stated that the work was the foremost authority in the field covered. These books were sent from Headquarters at the suggestion of Field case officer.

(5) Security Factors

The Field received information originating with INEREN to the effect that GELAUEN 1 is not too happy about the GELAUEN situation. This is not surprising since we have closely restricted GELAUEN activity during the past two years. (INEREN is run by the Swiss desk, and originally recruited GELAUEN 1. Every attempt is made to keep these agents operationally compartmented; however despite our efforts, they maintain social contact.)

GELAUEN 1 continues to maintain operational contact with GELAUEN 4 despite the fact that he previously denied maintaining active contact with other than five agents, which did not include GELAUEN 4.

Action Reported by Headquarters:

- (1) Headquarters reviewed the status of W/T cache folders and sent a dispatch to the Field with the goal of possessing a complete accurate set of W/T cache folders for all W/T caches in Austria, and to insure that London also possesses such a set.
- (2) Plans for the future status and direction of all Paramilitary activity in Austria will be formulated with the aid of the Chief of Mission who will arrive at Headquarters the latter part of January. In the meantime, activity has been curtailed, although permission was granted the Field to recruit three agents in the GELAUEN E & E line, and two agents in the GHEPAIR line.
